
Greenwood Roche Young Achiever of the Year 2017

We are pleased to continue to support the Property Council Southern Excellence Awards which recognise and celebrate excellence in property in the South Island. Christchurch Partner, Lauren Semple had the honour of presenting the Greenwood Roche Young Achiever Award as part of the event on 10 November 2017.

Congratulations to Fiona Short of Warren and Mahoney, this year's winner of the Greenwood Roche Young Achiever Award. Fiona is a very deserving winner of this award. She has recently become an Associate in the Christchurch Warren and Mahoney office, recognising her contribution to the Canterbury Rebuild. Moving to Christchurch months after the Canterbury Earthquakes, Fiona quickly found her stride working on a wide range of architectural projects. Her work on the Mary Potter Apartments went on to win a New Zealand Institute of Architects Canterbury Architecture Award.

Fiona has a clear passion for sustainability, leading the sustainability portfolio group within Warren and Mahoney. This group has been instrumental in creating documents to redefine what sustainability means to the architecture practice. Fiona has also played an active role in conversations about diversity and inclusion in the construction industry, including being part of the team responsible for organising the Architecture + Women exhibition aimed at increasing the visibility of the work in the rebuild undertaken by Christchurch women architects.

Congratulations Fiona, we look forward to seeing where your career takes you and to working with you in the future.
