## Duffy Books

---

We are excited this year to be continuing our support of the Duffy Books in Homes Programme. Since its launch in 1995, Duffy Books has been “inspiring a love of reading in children, so they can become adults who inspire a love of reading.” By supporting a low decile school operating on an ever-tight budget, the Programme ensures an increasing number of children have the opportunity and resources to read.

---

Greenwood Roche is proud to be supporting Riverhills School (Auckland), St Anne’s School (Wellington) and Bamford School (Christchurch). Our team has enjoyed working together to support the programme, particularly the cake baking competitions! Representatives from each of our offices have attended school assemblies to deliver books to students and have been humbled by the warm welcome we have received. Books are important to lawyers and its great to see the next generation of readers getting the chance to shine.

We are looking forward to watching the progress of the children on their path to a lifelong love of reading. To find out more about the Programme and the difference it is making, or to make a donation, you can visit Duffy Books at <http://www.booksinhomes.org.nz>.
